August 12, 2010

Effective with shipments September 1, 2010, the base price on all grades, shapes and sizes of Cold Finished Steel Bar will increase \$2.50 cwt.

This increase is in addition to any surcharges including, but not limited to, those for scrap, certain alloying elements and fuel as it relates to transportation.

Corey constantly monitors conditions in the marketplace and will continue to keep you informed of any changes. Should you have any questions or require any additional information, please contact your Corey sales representative.
